

*This election*

**HELP THE  
WORKERS**  
*who help you.*

**LESS HEALTH, CARE AND  
SUPPORT WORKERS  
= LESS ACCESS TO CARE**

This election, vote for a party that's fixing  
Australia's workforce crisis.

L Williams, Health Services Union, 255 Drummond St Carlton.

**This Government is fixing Australia's broken health and care system. You have a choice between more hospital funding, better pay and better access to care, or cuts under the Liberals.**

### **Pay rises for aged care workers**

Labor funded historic pay rises of up to 28% for aged care workers – the Liberals didn't support it.

### **Record increases to hospital funding**

Labor will invest \$33 billion in public hospitals – the Liberals would cut funding.

### **Fairer workplace laws**

Labor introduced new workplace laws to make it easier to get a pay rise, stop wage theft, and protect insecure workers. The Liberals voted against these changes.

### **Free Medicare urgent care and mental health clinics**

Labor is rolling out free Medicare urgent care and mental health clinics across the country.

### **Fee-free TAFE**

Labor is funding fee-free TAFE, to help build the health and care workforce of the future. The Liberals are against it.

### **Decreasing the gender pay gap**

Under Labor, the gender pay gap is at the lowest level it has ever been. Labor introduced payday super, increased paid parental leave, and required companies to report on their gender pay gaps.

### **Accessible reproductive health**

Labor is expanding access to reproductive health care – the Liberals won't commit.

### **Cost of living relief**

Labor is increasing minimum wages, cutting HECS debt, taxes and energy bills for low-paid workers. The Liberals would do the opposite.

If our essential workers disappear, Australians will wait longer at hospitals and clinics, and lose access to aged care and disability support. This election, don't risk Peter Dutton's Liberals.
